EXPERIENCE

BreezeEHR, New Orleans — *Software Engineer*

JULY 2019 - PRESENT

Clojure(Script), Datomic, React, Kafka, Kubernetes, Google Cloud

Building high quality electronic medical record software.

Lucid, New Orleans — *Senior Engineer, Platform Integrations*

DECEMBER 2016 - JULY 2018

Python, JavaScript, Node.js, Django, Airflow, Kafka, Airflow, PostgreSQL, AWS

Scoped, built, and supported six profitable integrations between Lucid and third-party platforms. Promoted to senior engineer for technical leadership of these projects in March 2018.

Worked closely with colleagues in all departments to identify opportunities to accelerate operations with new software.

Organized and implemented R&D projects focused around providing real-time cash incentives to online survey respondents.

Grok+Banter, New Orleans — *Developer + Information Analyst*

JANUARY 2016 - OCTOBER 2016

JavaScript, Node.js, Hapi.js, RabbitMQ, Docker, Raspberry Pi, OpenCV, DLib

Researched, designed, and implemented a solution to measure the effectiveness of out-of-home advertisements using OpenCV and DLib computer vision frameworks deployed to a Raspberry Pi.

Identified and introduced potential clients to our product at conferences.

BragOn, LLC, New Orleans — *Founder, iOS Developer*

MARCH 2014 - MAY 2015

Objective-C

Founded LLC with classmates. Published mobile shopping iPhone app to connect consumers with local retailers.

EDUCATION

Tulane University — *B.S. in Economics & Computer Science*

AUGUST 2011 - MAY 2015 | 3.6 GPA

Earned a minor in philosophy. Studied abroad in Sydney, Australia.

SKILLS

Learning quickly with an attention to best practices.

Listening and teaching to bridge the gap between tech and business.

Researching and prototyping new ideas and technologies.
